

Seagate® FreeAgent Theater+™

HD Media Player

Perfect for when you need to:

- Enjoy and share your photos, movies and music on your TV in the comfort of your living room.
- Access content from storage devices on your network.
- Access internet content, on your TV, such as pictures, weather, stocks, and more.
- Directly connect a digital camera or external storage device to enjoy media on your TV.

Video: HDMI, Component video, Composite video

Audio: HDMI, Optical S/PDIF audio, Stereo RCA

Data: USB, Ethernet

The easiest way to move and enjoy your photos, movies and music from your PC or Mac to your TV.

The FreeAgent Theater+™ HD media player provides an easy way to store and move your photos, movies and music from your PC or Mac® computer to your TV, allowing you to share and enjoy your digital media in a comfortable, social environment such as your living room.

The FreeAgent Theater+ HD media player solution consists of two components: an HD media player and a FreeAgent Go™ portable hard drive. With two easy steps, you will be viewing and sharing your favorite photos, movies and music in no time!

From your home computer, use the included sync software to automatically copy all of your media files to the FreeAgent Go drive, or simply drag-and-drop files directly to the drive. By then docking the FreeAgent Go drive into the FreeAgent Theater+ HD media player, connected to the TV, it puts your entire media library at your fingertips with 1080p high-definition playback and crystal clear surround sound audio. With the front-mounted USB port, you can also plug your digital camera, digital camcorder, USB flash drive, or external USB hard drive directly into the FreeAgent Theater+ HD media player and enjoy the same high-quality viewing experience.

With the built-in Ethernet port or optional Theater+ wireless adapter, the FreeAgent Theater+ HD media player can connect to your home network to access content from shared devices, including networked computers and NAS (network attached storage). The network connection also allows the Theater+ HD media player to access internet content such as pictures, weather, stocks, and more.

Navigating through your media library is intuitive with the DVD-like user interface and compact remote control. Browse your files with a familiar folder structure view, thumbnail view or filter by media type such as movies, pictures or music.

Highlights

- Easily enjoy your photos, movies and music on your TV.
- HDMI connectivity and 1080p HD video playback.
- Dolby® Digital and DTS® audio support
- Ethernet connection or optional Theater+™ wireless adapter for accessing shared content on your network.
