

Fact Sheet

Logitech® MX Keys for Mac Advanced Wireless Illuminated Keyboard

Mastered for Mac

Announcement Date: July 7, 2020

Expected Shipping: August 2020

Product Description

The Logitech MX Keys for Mac Advanced Wireless Illuminated Keyboard provides the best low profile typing experience from Logitech that users love in a true Mac layout. With keys shaped for your fingertips, the keyboard delivers a superior typing experience with a great tactile response. MX Keys for Mac has Mac optimized firmware, is equipped with USB-C to USB-C charging cable, and comes in the popular Space Gray finish to complement your Mac setup and pair perfectly with MX Master 3 for Mac.

Key Features

For Mac:

- Layout and Customizable Keys: Mac layout with enhanced keys that can be customized for virtually any action in Logitech Options, and spherically dished keys crafted for the shape of your fingertips.
- USB-C to USB-C Recharging: Full charge lasts up to 10 days, or up to five months with backlighting off. Use the included USB-C cable to also charge your mouse or phone.
- Space Gray finish: Perfectly matches MX Master 3 for Mac and your family of Apple devices.

MX Keys:

- Comfort, Stability, Elegance: Confidently type on a keyboard crafted for comfort, precision and remarkable stability. The entire body of the keyboard is held together by a single metal plate, resulting in a solid build, adding elegance to your desk.
- Smart Illumination: Backlit keys light up the moment your hands approach and automatically adjust to suit changing lighting conditions.
- Flow Cross-Computer Control: Control multiple Mac computers as your keyboard follows your Flow-enabled mouse from one Mac to another - on up to three devices. Just move the cursor and start typing.
