

## Fact Sheet

# Logitech® MX Anywhere 3 and MX Anywhere 3 for Mac

Master It. Anywhere.

**Announcement Date:** September 21, 2020

**Shipping:** October 2020

## Product Description

The Logitech® MX Anywhere 3, available in pale gray, rose and graphite, and MX Anywhere 3 for Mac, available in pale grey, are the ideal wireless compact mice for advanced creators, developers and analysts who seek performance, portability and comfort anywhere in one compact device. Experience the speed, precision and silence of MagSpeed electromagnetic scrolling and pixel-perfect tracking on any surface — even on glass.

## Key Features

- **MagSpeed Magnetic Scrolling:** Effortlessly scroll up to 1,000 lines in a second and stop on a pixel whenever you need to. MagSpeed wheel, made of machined steel, gives premium tactile feel and enough weight to offer dynamic inertia as you silently shift between ratchet and hyper-fast mode with the flick of your finger.
- **High-Precision Tracking on Any Surface:** Allows you to work from anywhere on virtually any surfaces, including glass\* – meaning you can work seamlessly at any desk or on the couch.
- **Ease of Transportation:** Designed to be thrown in your bag and easily cleaned after months of use at home or on the road. It's built to withstand the bumps and drops of mobile work.
- **Ergonomic Design and Inclusive Shape:** Fits both small and large hands and maintains comfort, while preventing pain and fatigue with a compact, low-profile design contoured for the shape of your hand so you'll be comfortable for hours no matter where you work. Silicone side grips mean it's always soft to the touch.
- **USB-C Quick Charging:** Stay powered for up to 70 days\*\* on a full charge, and get three hours of use from a one-minute quick charge, using the included USB-C charging cable.
- **Wireless Connectivity and Multi-OS:** Offers a reliable wireless connection up to 10 meters away and seamless versatility across devices. Connect up to three devices via Bluetooth® wireless technology or the included Unifying™ USB dongle and switch between them at the tap of a button. Works with Windows®, macOS, iPadOS, ChromeOS and Linux. MX Anywhere 3 for Mac works only via Bluetooth and is optimized for Mac and compatible with iPad.
- **c Flow Cross-Computer Control:** Use Logitech Flow™ to seamlessly control multiple computers and effortlessly transfer text, images and files between computers and operating systems by copying on one computer and pasting to the other.\*\*\*

## Product Specifications

### Mouse Dimensions

- Height: 34.4 mm
- Width: 65 mm
- Depth: 100.5 mm
- Weight: 99 g

### System Requirements

#### **MX Anywhere 3**

##### **USB Receiver**

- Required: available USB port
- Windows® 10 or later
- macOS 10.15 or later
- ChromeOS™<sup>1</sup>
